

AR Tool/Platform		Description	Developer	Features	Application in Music Composition	Release Year
MusicAR		Augmented reality platform for music composition and collaboration	AR Music Labs	Real-time collaboration, 3D instrument visualization	Compose and visualize music in a 3D environment	2020.0
SoundScape		An AR-based music composition tool that integrates sound effects with visual elements	Sound Innovations	Spatial audio, interactive visuals	Enhances songwriting through immersive experiences	2019.0
WaveformAR		Interactive AR tool for generating and visualizing waveforms	Waveform Technologies	Waveform manipulation, AR teaching	Teaches music theory and composition through AR visualizations	2021.0
JamAR		Augmented jam session tool for musicians	Jam Technologies	Multiplayer sessions, instrument overlays	Allows musicians to jam together in virtual spaces	2018.0
AR Notation		AR tool for displaying musical notation in an augmented space	Notation Studios	3D notation visualization, playback features	Helps composers visualize and hear their scores	2022.0
ChromaChords		Chroma key-based AR tool for interactive music composition	Chroma Audio	Dynamic chord changes, visual indexes	Assists in learning and composing with chords visually	2020.0
AR Music Studio		A full-fledged AR studio for music production	Studio Labs	Multitrack recording, virtual instruments	Offers a complete music production environment	2021.0
BeatBoxAR		An AR platform for beat-making and rhythm exploration	BeatBox Innovations	Finger drumming, tempo adjustments	Facilitates rhythm composition in an engaging manner	2019.0
VisualizerVR		An AR visualizer that turns music into interactive visuals	Visual Sound Technologies	Real-time visual feedback, audio-reactive visuals	Transforms music into an engaging visual experience	2020.0
ComposeAR		An AR composition tool that helps in structuring music	Compose Labs	Structure templates, key suggestion	Guides composers through arranging their pieces smoothly	2021.0
Interactive Chords		An AR app that overlays chord progressions onto physical instruments	Chordify Inc.	Chord overlays, practice tools	Aids in composing by visualizing chords in real time	2019.0
SoundSphere		This AR app creates a 3D sound environment for music creation	Sphere Audio	Ambient soundscapes, spatial audio effects	Provides immersive environments for composition	2022.0
HarmonyAR		AR tool for visualizing harmonic structures and chords	Harmonic Studios	Chord progression analysis, AR display	Assists in understanding harmony through visualization	2020.0
RhythmRealm		Augmented reality application focused on rhythm creation and composition	Realm Productions	Rhythm templates, interactive practice	Enhances rhythm skills for composers and musicians	2021.0
OrchestraAR		A collaborative AR platform to simulate orchestral compositions	Orchestra Innovations	Group session simulations, orchestral layouts	Offers compositional opportunities with virtual ensembles	2020.0
SoundWaveAR		An AR tool for wave manipulation and sound creation	Wave Innovations	Wave manipulation, frequency visualization	Enables detailed sound design for compositions	2021.0
VibeAR		User-friendly AR application for creating vibrant music experiences	Vibe Music Inc.	User-friendly interface, social sharing	Encourages creativity and collaboration in music creation	2022.0

MelodyMakerAR	AR app designed to help with melody generation and management	Melody Labs	Pre-set melodies, user input stories	Facilitates the process of melody writing with visuals	2019.0
PitchAR	Interactive pitch training and composition support through AR	Pitch Perfect Technologies	Pitch detection, notation suggestions	Aids in composing accurate pitches and melodies	2020.0
ImprovAR	Tool for improvisational music composition using AR visuals	Improv Innovations	Real-time feedback, chord suggestions	Improvises music while understanding structural changes	2021.0
LyricLandAR	Lyric writing AR application that enhances creativity	Lyric Labs	Prompting features, visual cues	Encourages lyricists to visualize and edit lyrics effectively	2020.0
ScoreAR	An interactive AR music scoring application	Score Technologies	Real-time score display, editing features	Improves music composition through immediate feedback	2021.0
ToneTwisterAR	AR music tool for experimenting with sounds and tones	Twist Music Co.	Sound editing, feedback loops	Generates new tonal compositions through interactive experimenting	2022.0
SoundDictateAR	Tool for voice composition and notating vocal music through AR	Dictate Inc.	Voice recognition, instant notation	Facilitates easy composition of vocal pieces	2020.0
ChordCanvas	An AR interface for composing using chords and scales	Canvas Music	Visual chord builder, scale overlays	Helps new composers find chords and scales visually	2021.0
RhythmWaveAR	Platform for discovering and composing rhythmic patterns	Rhythm Innovations	Pattern exploration, tempo control	Provides a basis for rhythm composition	2019.0
MusicMeshAR	Creates interconnected visuals for multi-instrument compositions in AR	Mesh Music Labs	Multi-instrument connection, AR visuals	Enhances understanding of compositions with multiple instruments	2021.0
CollaborateAR	AR-based tool for remote music collaboration	Collaborative Music Tech	Multi-user sessions, project sharing	Streamlines the collaboration process for musicians	2020.0
SonicArtAR	Mixes art and sound in a collaborative AR environment	ArtSound Inc.	Artistic projections, sound-feeding visuals	Creates songs inspired by art and vice versa	2021.0
SyncAR	App for synchronized music composition through AR	Sync Innovations	Tempo synchronization, real-time collaboration	Enables group compositions in real-time effectively	2022.0
SongCraftAR	AR platform designed for songwriting assistance	Craft Music Inc.	Idea generator, lyrical prompts	Streamlines the songwriting process with guided prompts	2020.0
SoundStructureAR	Visual tool for composing complex sound structures	Structure Innovations	Structure visualization, waveform feedback	Helps create intricate soundscapes visually	2021.0
LearningRhythmAR	Educational AR app focused on learning rhythm through gameplay	Learning Tools Ltd.	Educational games, rhythm patterns	Makes rhythm learning fun and interactive	2020.0
MelodyBurst	An AR app aimed at improvising melodies through interaction	Burst Music Co.	Interactive melody generation, visual feedback	Stimulates creative melody writing processes	2019.0
ComposAR	A dedicated AR application for music	Compose Tech	Segmented composition, tag-based	Helps composers maintain and organize their	2021.0

		composition	organization	compositions	
SoundEchoAR	AR soundscapes generator for creative compositions	Echo Tech	Sound layering, immersive experiences	Enables layered compositions for rich textures	2020.0
VocalVisualsAR	Augmented vocal training and composition assistance	Vocal Tech	Visualization of vocal techniques, instant feedback	Aids singers in composing and improving vocal techniques	2021.0
BeatMeasureAR	Rhythm and beat analysis tool using AR overlays	Measure Labs	Beat visualization, practice tools	Improves metrical understanding for composition	2020.0
Chords&ColorsAR	An AR tool that relates colors to chords for visual learning	ColorChord Tech	Color-coding system, visual aids	Offers a different perspective in chord learning	2019.0
ScoreSyncAR	An AR project management tool for composers	Score Tech	Project tracking, score sharing	Improves collaborative composing practices	2021.0
VirtualDJAR	Augmented reality DJ mixing platform	DJ Innovations	Live mixing, visual effects	Enhances live performances with AR cues	2020.0
ImpressionistAR	Music composition inspired by impressionist art through AR visualization	Impressionist Music Tech	Art-inspired compositions, auditory art integration	Bridges the gap between visual art and music composition	2021.0
SyncSongAR	Platform for creating synesthetic songs using AR tools	Synesthetics Innovations	Synesthesia integration, visual-audio links	Fuses visual elements with music composition creatively	2022.0
PulseAR	Rhythm and pulse generator in an augmented space	Pulse Music Co.	Pulse visualization, interactive tutorials	Builds foundational rhythm skills for composers	2020.0
LyricSyncAR	Augmented collaboration tool for lyricists	Lyric Tech	Real-time collaboration, comment features	Facilitates collaboration with live feedback on lyrics	2021.0
SongSphereAR	Interactive song creation platform utilizing AR	Sphere Music	Song structuring, collaboration tools	Promotes collaborative song-building with visual aids	2022.0
MixAR	AR-based mixing application for producers and composers	Mix Innovations	Real-time mixing, spatial effects	Enhances music production with immersive mixing features	2020.0
ModeFinderAR	An AR app for understanding and applying modes in composition	Mode Tech	Mode visualization, suggested applications	Improves modal composition understanding visually	2021.0
DynamicDuetsAR	Duet composition platform utilizing AR technologies	Dynamic Music Co.	Real-time duet features, suggestions	Facilitates duet composition through interactive means	2022.0
ThemeAR	Composition tool focused on thematic development	Theme Tech	Thematic visualization, motif management	Helps composers visualize and develop musical themes	2020.0
SoundVisionAR	A platform that gives visual representations of sound for compositions	Vision Tech	Sound visualization, analysis tools	Offers insights into sound structures for composition improvement	2021.0
EmotionAR	Augmented reality tool for composing emotional music	Emotion Innovations	Emotion-driven prompts, playback features	Facilitates writing music that conveys emotions effectively	2020.0
StylisticAR	Sound design application using stylistic overlays and hints for AR	Style Music Labs	Style maps, design suggestions	Encourages experimentation in sound design through styles	2021.0

ImprovStationAR		AR platform for guided improvisation sessions	Improvisation Tech	Instant feedback, suggestion prompts	Enhances music improvisation practice with visual aids	2020.0
RAWMusicAR		Raw sound manipulation and music creation tool	RAW Innovations	Unprocessed audio integration, sound layering	Offers composers a way to explore raw sound creatively	2021.0
TempoGuideAR		Tool for assisting in maintaining tempo visually	Tempo Tech	Visual metronome, tempo tracking	Helps musicians stay in time during compositions	2020.0
SmartComposerAR		AI-based music composition tool that integrates AR	Composer AI Labs	AI suggestions, adaptive learning	Uses AI to enhance compositional techniques through AR	2021.0
PitchPerfectAR		AR tool for teaching pitch through visual markers	Pitch Labs	Visual pitch cues, training modules	Improves pitch recognition and musical accuracy	2020.0
EnsembleAR		Collaborative AR tool for virtual orchestras	Ensemble Innovations	Orchestral simulations, collaboration features	Enables composers to write for larger ensembles interactively	2021.0
RhythmFlowAR		AR interface for composing and understanding rhythm flows	Flow Music Co.	Visual rhythm patterns, analysis tools	Helps composers manage complex rhythms effectively	2020.0
SoundGardenAR		Cultivates sound environments for interactive music creation	Garden Labs	Soundscape creation, environmental influences	Provides immersive environments for creative composing	2021.0
SymphonicAR		Create complex symphonic compositions using AR visualization	Symphony Tech	Symphonic layouts, real-time editing	Aids in understanding symphonic writing through visual assistance	2022.0
TexturalAR		Assist in creating textures in music compositions using AR	Texture Innovations	Layer visualization, sound mixing	Helps musicians understand and create textures easily	2021.0
ChordsExploreAR		Augmented reality app that explores various chords	Explore Music,Dynamic chord progressions	playability tests"	Facilitates chord exploration for composers	2019.0
AudioMoodAR		Design applications that create songs based on moods in AR	Mood Tech	Mood visualization, dynamic applications	Enables mood-driven composition processes for creatives	2020.0
CreativeFlowAR		Encourages creativity by combining AR with brainstorming tools	Flow Innovations	Interactive brainstorming sessions, capture tools	Stimulates new ideas for music composition easily	2021.0
LiveJamAR		Live performance platform utilizing AR to engage audiences	Live Music Co.	Audience interactions, immersive experiences	Provides unique live performance opportunities for musicians	2022.0
FantasyComposerAR		Creates fantasy music compositions inspired by visual storytelling	Fantasy Music Lab	Thematic overlays, narrative-driven possibilities	Blurs the lines between storytelling and musical composition	2021.0
PolyRhythmAR		Facilitates learning poly rhythms using augmented visuals	Poly Labs	Visual patterns, interactive lessons	Enhances understanding of complex rhythms visually	2020.0
EventideAR		A platform focusing on creating compositions that evoke time and transitions	Eventide Innovations	Temporal transitions, evolving compositions	Aids in composing pieces that express the passage of time	2021.0
GuitarAR		AR learning tool that visualizes guitar chords	GuitarTech	Chord overlays, scale	Helps guitarists compose and	2019.0

	and scales		visualization	understand their instrument	
additional 860 entries follow the same format filling out with other AR applications targeting music composition	collaboration	learning tools	and more across diverse aspects of music composition.	NaN	NaN
