

Storage Solution		Type	Protocol	Platform	Description
IPFS	P2P File Storage	IPFS	Multichain	InterPlanetary File System, decentralized, content-addressable storage.	
Storj	Cloud Storage	Tardigrade		Decentralized cloud storage platform with a user-friendly interface.	
Sia	P2P Storage	Sia		A decentralized storage platform that utilizes blockchain technology.	
Filecoin	Blockchain Storage	Filecoin	Blockchain	Incentivized storage network that allows users to rent out their unused hard drive space.	
Arweave	Permanent Storage	Arweave		A decentralized permanent storage solution that pays for content permanence.	
Ethereum Swarm	P2P Storage	Swarm	Ethereum	A distributed file storage and sharing system for the Ethereum ecosystem.	
Dat	P2P Storage	Dat	Multichain	A protocol for sharing data on the web, including real-time synchronization.	
BitTorrent	P2P File Sharing	BitTorrent		Peer-to-peer file sharing protocol that utilizes a decentralized storage approach.	
ZeroNet	P2P Website Hosting	ZeroNet		A decentralized web platform that uses Bitcoin cryptography and BitTorrent technology.	
Cloudflare R2	Cloud Storage	Cloudflare	Multichain	Object storage system designed to be compatible with AWS S3.	
Backblaze B2	Cloud Storage	Backblaze		Affordable cloud storage that provides an easy-to-use API.	
Braindrop	P2P Sharing	Braindrop	Multichain	A decentralized sharing network leveraging the power of blockchain.	
IPFS Cluster	P2P Storage	IPFS		Tool for orchestrating multiple IPFS nodes to create a resilient, redundant storage.	
Pinata	IPFS Service	Pinata		Service to easily pin content on IPFS with additional features.	
Lambda	Cloud Storage	Lambda	Multichain	File storage solution for developers focused on simplicity and speed.	
Resilio Sync	P2P File Synchronization	Resilio		Sync files across devices using P2P technology, no cloud required.	
Jotamot	P2P Storage	Jotamot	Multichain	A decentralized storage protocol designed for small files.	
Oraculos	Decentralized Database	Oraculos		A decentralized database solution tailored for dApps.	
Holochain	Decentralized App Framework	Holochain		Framework for building decentralized applications with local storage.	
Blockstack	Decentralized Identity and Storage	Blockstack	Multichain	Enables user-controlled apps with decentralized storage options.	
Pinata Cloud	IPFS Service	Pinata Cloud		Cloud services to manage and pin files on IPFS.	
Storium	Decentralized Gaming Files	Storium		P2P storage solution for gaming assets and files.	
	Decentralized			A peer-to-peer platform for	

Freenet	Internet	Freenet	Multichain	censorship-resistant web publishing.
Tardigrade	Decentralized Cloud Storage	Storj	Multichain	A decentralized file storage solution by Storj networks.
OpenBazaar	Decentralized E-commerce	OpenBazaar	Multichain	Marketplace that allows users to trade directly without a third party.
CyberDeFi	P2P Storage and Finance	CyberDeFi	Multichain	Combines decentralized storage and finance with a decentralized protocol.
Chainlink Files	Decentralized File Storage	Chainlink	Blockchain	Allows for secure storage and retrieval of data by oracles.
NuCypher	Data Encryption and Storage	NuCypher	Blockchain	Provides encryption services for decentralized storage solutions.
ETHLend	Decentralized Lending with Storage	ETHLend	Ethereum	Financial services on Ethereum with a focus on data ownership.
DataScene	Decentralized Data Protocol	DataScene	Multichain	Protocol for sharing and exchanging data securely in decentralized networks.
AR Drive	Storage for AR Content	AR Drive	Multichain	Decentralized storage focused on augmented reality applications.
DStorage	Hybrid Cloud Storage	DStorage	Multichain	Combines decentralized network with traditional cloud storage systems.
Vultus	Data Management	Vultus	Blockchain	Decentralized system for managing and storing data in blockchain.
Ocean Protocol	Data Marketplace	Ocean	Multichain	Platform for seeking, sharing, and storing datasets securely.
Meshnet	Decentralized Networking+Storage	Meshnet	Multichain	Combines decentralized storage and networking into a single framework.
GetCoin	P2P File Transfer	GetCoin	Multichain	A file sharing service allowing decentralized exchanges of cryptocurrencies.
spaceWISE	Storage for IoT Devices	spaceWISE	Multichain	A storage solution targeted towards IoT device data management.
Resumable.js	P2P File Resumable Uploads	Resumable.js	Multichain	JavaScript library for file uploads using decentralized technology.
Hyperledger Fabric	Blockchain Storage Framework	Hyperledger	Blockchain	Modular blockchain framework for enterprise solutions including storage.
Ocean Market	Decentralized Data Marketplace	Ocean Market	Multichain	A marketplace for data sharing and monetization using decentralized principles.
Web3.Storage	Decentralized Web Storage	Web3.Storage	Multichain	Storage service designed for Web3 applications utilizing IPFS.
Filebase	File Storage for DApps	Filebase	Multichain	Easy file storage for decentralized apps using various protocols.
Substratum	Decentralized Hosting	Substratum	Multichain	A platform for hosting websites on a decentralized network.
Filetrade	File Trade Platform	Filetrade	Multichain	Decentralized platform for trading files directly between users.
Koofr	Cloud Storage with Decentralization	Koofr	Multichain	Centralized cloud storage with options for decentralized principles. Marketplace with

Swarm City	Decentralized Marketplace	Swarm City	Ethereum	decentralized transactions and file storage.
NEM Blockchain Storage	Blockchain-Based Storage	NEM	Blockchain	Storage solutions built on the NEM blockchain technology.
MetaMask	Wallet with Storage Capabilities	MetaMask	Ethereum	Wallet providing decentralized storage for ERC20 tokens and NFTs.
Filecoin Plus	Incentivized Filecoin Storage	Filecoin Plus	Blockchain	Incentivized program expanding Filecoin's storage network.
Stackr	Decentralized File Management	Stackr	Multichain	User-centric decentralized file management and storage service.
Storj DCS	Decentralized Cloud Storage Service	Storj DCS	Multichain	Decentralized cloud storage as a service with API support.
OpenTimestamps	Timestamping and Storage	OpenTimestamps	Multichain	Allows data to be securely timestamped and stored on a blockchain.
Blend	Blockchain Data Solutions	Blend	Blockchain	Offers a range of tools for blockchain data storage and analysis.
Keep3r Network	Decentralized Job Board with Storage	Keep3r Network	Ethereum	A keeper of decentralized jobs with storage capabilities.
Trezor	Cryptocurrency Hardware Wallet	Trezor	Multichain	Secure storage solution for cryptocurrencies and tokens.
Lighthouse	DApp for File Sharing	Lighthouse	Multichain	Allows users to share files on a decentralized peer-to-peer network.
Safe Network	Self-Encrypting Storage Network	Safe Network	Blockchain	A user-driven data storage network ensuring privacy and security.
Decenternet	Decentralized Internet and Storage	Decenternet	Multichain	Combines decentralized internet with data storage for users.
Bolt	Decentralized Storage for Projects	Bolt	Multichain	Storage platform tailored for project developers with decentralized features.
Filerobot	Object Storage with Decentralization	Filerobot	Multichain	Cloud-based services with a decentralized approach to storage.
Blockstack Clarity	Smart Contract Language for Storage	Blockstack Clarity	Blockchain	Language for creating secure, decentralized apps with integrated storage.
ChainSafe	Decentralized Storage Solutions	ChainSafe	Blockchain	Developer tools for implementing decentralized storage in dApps.
Secure Scuttlebutt	P2P Social Network Storage	Secure Scuttlebutt	Multichain	Decentralized social network with local-first storage.
Maidsafe	Decentralized Data and Storage Network	Maidsafe	Multichain	Aims to create a secure platform where users can store and share data.
Agoric	Decentralized Smart Contracts and Storage	Agoric	Multichain	Enables smart contracts with secure storage on the blockchain.
Data NFTs	Digital Data Ownership	Data NFTs	Multichain	NFTs representing ownership of digital assets stored on a blockchain.
BlockFi	Decentralized Financial Services and Storage	BlockFi	Blockchain	Platform tied to financial services with a decentralized ethos.
Scuttlebutt	Decentralized Social File Sharing	Scuttlebutt	Multichain	A protocol for building a decentralized social network.

Smart Contract Storage	Smart Contracts + Storage	Smart Contract Storage	Blockchain	Integrates storage with smart contracts for various DApps.
AI Blockchain	Integrating AI with Decentralized Storage	AI Blockchain	Blockchain	AI solutions combined with secure decentralized data storage.
DSpace	Decentralized Data Space Management	DSpace	Multichain	Platform for managing and sharing decentralized datasets.
â€œInterplanetary Communication Network	â€œInterplanetary File Storage	â€œInterplanetary	â€œMulti-chain	â€œStorage system designed for interplanetary communications.â€œ
Evervault	Decentralized Encryption and Storage	Evervault	Multichain	Builds privacy into storage solutions using encryption.
Ceph	Distributed Storage System	Ceph	Multichain	Open-source storage platform that can scale up to massive amounts of data.
Hive	Decentralized Blogging Platform	Hive	Multichain	Built on Bitcoin, enables user ownership of content and storage.
RaptorChain	Decentralized Blockchain Storage	RaptorChain	Blockchain	A specialized blockchain for decentralized data storage solutions.
Sideload	Decentralized Peer-to-Peer File Transfers	Sideload	Multichain	Platform for P2P file transfers combined with decentralized storage.
Anchor	Decentralized Cloud Storage Protocol	Anchor	Multichain	Protocol that enables decentralized, secure cloud storage.
â€œEventStore	â€œEvent Sourcing and Storage	â€œEventStore	â€œBlockchain	â€œDatabase designed for real-time management and storage of events.â€œ
IndexedDB	Browser-based Decentralized Storage	IndexedDB	Multichain	Allows web applications to store data persistently in browsers.
CloudHash	Decentralized Cloud Computing and Storage	CloudHash	Blockchain	Platform integrating decentralized computing with cloud storage.
DeCloud	Decentralized File Sharing and Storage	DeCloud	Blockchain	Decentralized platform for sharing and storing files securely.
Fusion	Decentralized Smart Solutions	Fusion	Blockchain	Storage solution focused on linking different blockchain ecosystems.
Redblox	Decentralized Social Media and Storage	Redblox	Multichain	Combines social media functionalities with decentralized file storage.
Geist	Decentralized Identity and Storage System	Geist	Blockchain	Identity storage system leveraging blockchain for secure access.
DriveShare	Decentralized Drive Directory	DriveShare	Blockchain	A decentralized solution for sharing drives and storage.
Mailchain	Decentralized Messaging and Storage	Mailchain	Multichain	Combines messaging with decentralized data storage capabilities.
Smart Data	Integrating AI with Blockchain	Smart Data	Multichain	Combines AI with decentralized storage for advanced data management.
Zigzag	Decentralized Exchange with Storage	Zigzag	Multichain	Decentralized exchange incorporating storage elements.
Kademlia	P2P Storage Protocol	Kademlia	Multichain	Protocol for decentralized peer-to-peer file storage.
FOSS	Decentralized Open Storage Solutions	FOSS	Multichain	Open-source solutions for decentralized data storage.
Element, Decentralized Communication and Storage	Element, Multichain	Communication platform with decentralized data storage capabilities.	NaN	NaN

Nethereum	Ethereum Data Storage	Nethereum	Blockchain	Framework for interacting with Ethereum for data storage.
Moonbeam, Decentralized Network and Storage	Moonbeam, Blockchain	Smart contract platform that integrates storage solutions.	NaN	NaN
Fieldwire, Decentralized Project Management and Storage	Fieldwire, Blockchain	Project management tool with built-in decentralized storage.	NaN	NaN
Proppy, Decentralized Real Estate Storage	Proppy, Blockchain	Enables property management and storage in a decentralized format.	NaN	NaN
TrueFi	True Decentralized Finance with Storage	TrueFi	Blockchain	Unsecured lending platform paired with decentralized data storage.
hyperDB	Decentralized Database Storage	hyperDB	Multichain	Distributed database system enabling decentralized data storage.
R3 Corda	Enterprise-focused Storage Solution	R3 Corda	Blockchain	Allows businesses to store and manage data in a decentralized way.
WebTorrent	Streaming and Storage in P2P	WebTorrent	Multichain	Streaming and file sharing using decentralized protocols.
Chainstack	Managed Blockchain Storage Services	Chainstack	Multichain	Offers developer-friendly services for utilizing blockchain storage.
Fala Network	Confidential Compute Storage	Fala Network	Blockchain	Privacy-preserving storage solution for sensitive data.
Packetcrypt	Decentralized Network and Storage	Packetcrypt	Multichain	Combines decentralized file storage with network capabilities.
Neos	Decentralized Community-driven Storage	Neos	Blockchain	Storage platform aiming to foster community contributions.
Flux	Web 3.0 Storage Solutions	Flux	Multichain	Decentralized storage dedicated to Web 3.0 applications.
remoteStorage	User-controlled Storage Service	remoteStorage	Multichain	API for user-controlled storage in decentralized web applications.
