

Garden Type	Plant Type	Wildlife Attracted	Location	Notes
Pollinator Garden	Butterfly Bush	Butterflies	Urban	Native to temperate climates, fragrant flowers.
Rain Garden	Blue Flag Iris	Amphibians	Suburban	Helps manage stormwater runoff.
Vegetable Garden	Tomato	Birds	Residential	Attracts insects and birds for pest control.
Herb Garden	Lavender	Bees	Urban	Aromatic and drought-resistant.
Wildflower Meadow	Purple Coneflower	Pollinators	Rural	Supports diverse insect life.
Woodland Garden	Trillium	Mammals	Wooded area	Provides shelter for small animals.
Rock Garden	Sedum	Lizards	Drought-prone areas	Great for sunny spots, low maintenance.
Butterfly Garden	Milkweed	Monarchs	Suburban	Essential for caterpillar stage.
Container Garden	Nasturtium	Bees	Balcony	Edible flowers, attracts pollinators.
Rainforest Garden	Ferns	Birds	Tropical	Lush environment, humidity-loving plants.
Fruit Orchard	Apple Trees	Bats	Rural	Produces fruits for humans and food for wildlife.
Native Plant Garden	Echinacea	Pollinators	Urban	Supports local biodiversity.
Companion Garden	Marigold	Beneficial Insects	Residential	Deters pests naturally.
Shade Garden	Hosta	Slugs	Shaded areas	Requires moist, rich soil.
Scented Garden	Jasmine	Moths	Urban	Attracts night pollinators.
Beach Garden	Beach Strawberry	Seabirds	Coastal	Handles salt and wind exposure.
Permaculture Garden	Comfrey	Bees	Suburban	Supports a sustainable ecosystem.
Fruit & Nut Tree Garden	Oak Tree	Squirrels	Rural	Provides acorns for wildlife.
Herb Spiral	Thyme	Bees	Urban	Maximizes space in small areas.
Butterfly Habitat	Zinnia	Butterflies	Residential	Brightly colored flowers to attract visitors.
Wildlife Corridor	Dogwood	Birds	Rural	Connects different habitats for animal movement.
Vegetation Island	Rushes	Frogs	Wetland	Supports aquatic life and absorption.
Native Prairie Garden	Milkweed	Butterflies	Rural	Restores native ecosystems.
Glasshouse Plants	Tropical Ferns	Insects	Indoor	Maintains consistent humidity.
Garden Borders	Holly	Birds	Property Edge	Provides berries and shelter.
Ground Cover	Creeping Thyme	Pollinators	Walkways	Low height for easy maintenance.
Rainwater Garden	Yarrow	Insects	Suburban	Filters runoff and supports pollinators.
Tree Canopy Garden	Maple	Bats	Urban	Provides shade and habitat.
Frog Pond Garden	Lily Pads	Frogs	Backyard	Ensures a safe habitat for amphibians.
Botanical Garden	Orchid	Pollinators	City	Diverse plant species researched for conservation.
Pond Garden	Water Lilies	Birds	Wetland	Supports aquatic wildlife and insects.
Producing Garden	Almond Tree	Pollinators	Rural	Bee-friendly and economically viable.
Rocky Shore Garden	Seaside Daisy	Sea Birds	Coastal	Thrives in harsh coastal conditions.
Container Vegetable Garden	Bell Pepper	Butterflies	Balcony	Space-efficient and attractive.
Vermiculture Garden	Vermicompost	Soil Health Insects	Urban	Supports healthy soil IT.
Sanctuary Garden	Thorny Bushes	Small Mammals	Rural	Provides protective cover.
Herbaceous Border	Daylily	Bees	Garden Edge	Seasonal blooms for nectar.
Foliage Garden	Caladium	Insects	Shady Areas	Diverse foliage colors and shapes.
Terrace Garden	Sedum	Pollinators	Balcony	Excellent for roof gardens.
Nectar Garden	Borage	Bees	Urban	Edible flower known for attracting pollinators.
Urban Green Roof	Native Grass	Birds	Urban	Maximizes space and biodiversity.
Beekeeping Garden	Sunflower	Bees	Rural	Large blossoms attract honey bees.
Deer-Friendly Garden	Boxwood	Deer	Suburban	Low maintenance, evergreen options.
Butterfly Habitat Garden	Aster	Butterflies	Residential	Bright, colorful blooms attract species.
Edible Landscape Garden	Raspberry	Birds	Suburban	Edible fruit feeds both humans and wildlife.
Flowering Shrubs	Azalea	Pollinators	Urban	Bright flowers enhance urban wildlife.

Garden				
Wetland Restoration	Cattails	Wildlife	Wetland	Supports aquatic ecosystems.
Drought-Tolerant Garden	Agave	Butterflies	Desert	Requires minimal water.
Alpine Garden	Alpine Aster	Mountain Wildlife	Mountains	Plants adapted to high altitudes.
Community Garden	Squash	Pollinators	Urban	Promotes local food production.
Forested Garden	Red Maple	Squirrels	Woodland	Dense cover for fauna.
Pollinator Pathway	Bee Balm	Bees	Neighborhoods	Linking gardens for pollination assistance.
Silvopasture	Fruits	Livestock	Rural	Integrates forestry and grazing.
Succulent Garden	Aloe Vera	Pollinators	Dry Areas	Low-water, attractive plants.
National Park Garden	Sequoia	Wildlife	Parkland	Natural habitat support.
Pressured Ecosystem Garden	Water Hyacinth	Insects	Aquatic	Filters excess nutrients.
Educational Garden	Compost Bin	Microorganisms	Community	Teaches sustainable practices.
Traditionally Cultivated Garden	Corn	Birds	Rural	Traditional agricultural practices.
Harvest Garden	Squash Blossom	Pollinators	Residential	Attracts beneficial insects.
Shade-Producing Garden	Redbud	Birds	Woodlands	Dappled sunlight for low plants.
Therapeutic Garden	Aromatics	Stress Reduction Wildlife	Community Center	Healing environment.
Interactive Garden	Edible Weeds	Beneficial Insects	Community	Educational component for locals.
Birdwatching Garden	Wood Thrush	Birds	Suburban	Nesting opportunities.
Seasonal Gardening	Pansy	Pollinators	Residential	Cool-season and annual plants.
Fairy Garden	Miniature Ferns	Insects	Urban	Enchantment themes for kids.
Vertical Garden	Ivy	Birds	Urban	Maximizes vertical space.
Historic Garden	Old Roses	Insects	Urban	Represents historical planting traditions.
Sensory Garden	Fragrant Herbs	Humans & Insects	Community	Engages all five senses.
Kids Gardening Zone	Sunflowers	Insects	Educational	Encourages children's interests in nature.
Rewilding Garden	Native Grasses	Wildlife	Rural	Restores natural plant communities.
Botanical Study Garden	Medicinal Plants	Insects & Humans	Educational Institution	Focuses on plant research.
Community Pollinator Garden	Wildflowers	Pollinators	Community	Supports ecological diversity.
Aquatic Ecosystem Garden	Lotus	Aquatic Birds	Wetlands	Supports biodiversity in water.
Perennial Plant Garden	Black-eyed Susan	Butterflies	Residential	Long-lasting blooms each year.
Palm Garden	Sago Palm	Birds	Tropical	Supports a warm environment.
Sustainable Garden	Permaculture Plants	Wildlife	Rural	Focus on closed-loop systems.
Biodiversity Plot	Nectar Plants	Bees	Residential	Focuses on increasing local biodiversity.
Sunny Spot Garden	Coreopsis	Butterflies	Sunlit Areas	Attracts sun-loving species.
Green Hedge Garden	Boxwood	Birds	Urban	Provides privacy while offering habitat.
Butterfly Host Plant Garden	Parsley	Swallowtail Butterflies	Urban	Caterpillar food source.
Grassland Restoration	Foxtail Grass	Native Birds	Rural	Helps restore natural grasslands.
Edge Garden	Apricot Tree	Birds	Garden Edge	Combines landscaping with wildlife benefits.
Wooded Habitat Garden	Wild Ginger	Reptiles	Woodland	Provides shelter and food.
Critical Habitat Garden	Oregano	Pollinators	Suburban	Essential for area-specific wildlife.
Seasonal Color Garden	Chrysanthemums	Bees	Residential	Engages bees into the fall.
Microclimate Garden	Mediterranean Herbs	Insects	Patios	Captures warmth in small spaces.
Herbaceous Native Plant Garden	Coneflower	Pollinators & Birds	Urban	Focus on local species.
Flowering Vine Garden	Wisteria	Butterflies	Pergolas	Attracts pollinators in warm months.

Pinenuts & Birch Garden	Birch Trees	Squirrels	Rural	Combines food sources with aesthetic value.
Outdoor Classroom Garden	Educational Plants	Students	Schools	Promotes learning about nature.
Spring Bloomer Garden	Tulip	Pollinators	Residential	Early season benefits for bees.
Culinary Herb Garden	Chives	Pollinators	Urban	Utilitarian and attractive.
Exotic Plants Garden	Ornamental Banana	Birds	Tropical	Demonstration of unique plant varieties.
Biophilia-inspired Garden	Mix of Edibles & Ornamentals	Human Well-being	Urban	Promotes connection with nature.
Wild Edibles Garden	Dandelion	Birds & Humans	Residential	Introduces foragers to local edible plants.
Understory Garden	Vinca	Pollinators	Woodlands	Works in shady environments.
Community Orchard	Peach Trees	Birds	Suburban	Promotes community engagement and wildlife support.
Transitional Spaces Garden	Windbreak Trees	Wildlife	Rural	Supports shifts in habitat types.
Grafted Plants Garden	Apple Trees	Birds & Small Mammals	Rural	Features fruit-producing trees.
Cottage Garden	Rudbeckia	Insects	Residential	Old-world charm with wildlife benefits.
Fallen Leaves Garden	Mulch Layers	Insects	Woodland	Traps nutrients and wildlife benefits.
Nest Box Garden	Birdhouses	Birds	Residential	Encourages nesting and birdwatching.
Sunny Jigsaw Garden	Austin Bluebonnet	Bees	Sunny Areas	Shapes and patterns to attract pollinators.
Coastal Dune Garden	Beach Grass	Seabirds	Coastal	Stabilizes coastal soils while supporting wildlife.
Conservation Practice Garden	Soil Native Plants	Insects	Community	Promotes soil health.
Open Pollinator Habitat	Wild Bergamot	Bees	Rural	Supports open pollination practices.
Desert Flora Garden	Cacti	Lizards	Desert	Adapted to arid conditions.
Hybrid Garden	Inter-varietal Plants	Pollinators	Residential	Explores hybrid plant varieties.
Native Oak Garden	Live Oak	Mammals & Birds	Wooded Areas	Provides habitat for a variety of species.
Herb-Infused Flower Garden	Flowering Herbs	Pollinators	Urban	Inviting mixed aromas.
Weather Resilient Garden	Perennial Herbs	Pollinators	Urban	Adapts to climate change.
Historic Cultural Garden	Traditional Plants	Community Wildlife	Urban	Educational and culturally relevant types.
Shrub Layer Garden	Serviceberry	Birds	Urban	Berries supportive of local fauna.
Peaceful Retreat Garden	Zen Plants	Mindfulness	Residential	Promotes tranquility and reflection.
Edge of the Woods Garden	Wild Blueberry	Birds & Small Mammals	Wooded Areas	Offers food and shelter.)
Hedge Row Garden	Hawthorn	Insects	Rural	Supports hedgerow biodiversity.
Scenic View Garden	Flower Borders	Pollinators	Overlook Areas	Creates visual interest while encouraging wildlife.
Seasonally Flooded Garden	Water Tolerant Plants	Wetland Wildlife	Flood Zones	Adapts to seasonal changes.
Social Impact Garden	Collective Growing Areas	Communality & Wildlife	Urban	Encourages social interaction with nature.
Food Forest Garden	Multiple Layers of Edible Plants	Wildlife & Humans	Suburban	Mimics natural forests for food production.
Bee Sanctuary Garden	Honeyberry	Bees	Urban	Supports local apiculture.
Fragrance Garden	Romantic Flowers	Pollinators	Community	Attracts pollinators with sweet aromas.
Playful Nature Garden	Kid-Friendly Plants	Humans & Insects	Community	Inspires children to engage with nature.
Shrub Layer Habitat Garden	Hawthorn	Wildlife	Rural	Providers habitat under taller structures.
Craft Garden	Natural Dyes	Insects & Humans	Community	Engages crafting communities in nature.
Tree Canopy Walkway		Insects &		A unique perspective on nature from

Garden	Maple Delights	Humans	Urban	above.
Urban Permaculture Garden	Herb Mixes	Insects & Humans	Urban	Supports sustainable living.
Listening Garden	Wind-Sensitive Plants	Insects & Humans	Community	Creates sounds through wind interaction.
